Overall Success

Kim Crocker ★★★★★ Mar 19, 2024

I love the ability to customize scripture and encouragement into my daily online activities. It is another way to see God in my life.

Love the ability to customize this app. Favorite part is the ability to change the verse of the day to a specific verse. If I wanted a specific passage to memorize or pray over. It is a nice alternative than a google search bar. I feel like I could cast my screen without worry of a new tab being open.

Very nice extension. Nice to get a second to pause. My one recommendation if it can be done, would be to allow additional tabs to be opened without the background so as to show the Google widget links.
